Reader's Opinions

Odium: Origins by Claire C Reilly is a companion novella to Odium. And if you read my review on Odium you know I am not a fan of zombie apocalypse stories. This was the second book by Ms. Reilly...

It was a tough read since I read "Odium" first. Origins gives you a little background on the characters and what was going on the day the "living dead" took over. It made reading Odium that much better. The one that got to me the most was "The Hero" it was gut wrenching. My heart hurt for these characters.
