Reader's Opinions

A friend of mine recommended this when I announced that I was in the mood for some good mysteries. This isn't an author I would typically pick out for myself, but I love to expand my reading horizons. I was surprised that I enjoyed this. I wasn't in love with it, but still enjoyable.

This is another solid entry in the Brady Coyne series, very readable with a complex but plausible storyline and, of course, the likable Brady.
